

Ten brands for gogh demos

Very different brands, each written the way a real guideline reads. Copy a grey block, open **Your brand** in gogh, and paste it into **Or paste your brand guidelines**.

What gogh does with each: it reads the colours by the word beside them (Primary, Secondary, Background, Text), the fonts by name, places anything unnamed by how it looks, fills whatever is missing, then says a sentence about what it did. Where a font isn't in the theme, it says so and keeps the theme's own.

1. Hollow Reach — muted sage and oat
2. Volt & Ash — loud coral on black
3. Marigold Bakery — butter yellow, warm
4. Northline Legal — navy, formal
5. Pulse Fitness — magenta and teal, dark
6. Ferngully Nursery — garden greens
7. Studio Ninety — monochrome, minimal
8. Lilac & Co — pastel florist
9. Copperfield Coffee — brown and cream
10. Bluewater Sailing — codes with no roles (gogh places them)

Bluewater Sailing

Our palette: `rgb(0, 72, 128)`, `rgb(255, 255, 255)`, `rgb(17, 24, 39)` and `rgb(240, 180, 41)`.

We use a clean sans-serif throughout.

Expect: no roles are named, so gogh places them — white as the page, the near-black as words, the deep blue as buttons (light words), the yellow as badges — and marks each “placed”. No font names, so the theme’s own stay.
